

# UOTTAWA WORLD VISION

## IMPACT NEWSLETTER

### GIFT CATALOGUE

The holidays are almost here! World Vision offers a great gift catalogue that can be used to give a gift that will have a direct impact on families around the world. While donations are always welcome, the gift catalogue provides the opportunity for meaningful contributions to vulnerable populations. There is a variety of gifts to choose from, ranging from roosters and hens, school supplies, providing medical supplies including deworming drugs or protective equipment, emergency food to help combat famine, goats, and textbooks for children. A recent addition to the catalogue is supplies for the COVID-19 response, where supplies like masks and hand sanitizers can be given to stop the spread of COVID.

## Gift Catalogue: The Impact It Has On Communities

By gifting supplies, World Vision offers a way for communities to use the resources they obtain to learn how to become resourceful themselves! In one case, a family was gifted two goats, and was trained on how to properly care for the goats. With the goats, the children of the family got access to milk, and the family gained a source of income. In another situation, bicycles gifted to communities were used as transport methods for kids to get to school (some of which are more than 7 km away). Not only did the bicycles increase the sense of safety of these kids, but also saved commuting times that can be used for other responsibilities.

### Gift Ideas:

#### 1. Emergency Food

- Helps support combatting famine.

#### 2. Clean Water Fund

- Promotes healthy living, and prevents spread of worms and diseases like cholera.

#### 3. Piglets and Chicks

- Another source of income, as well as a source of food.

#### 4. Lucky Iron Fish

- Placing these iron fishes into boiling pots releases iron and can be ingested; a much-needed nutrient.

#### 5. Baby Kits

- These kits contain wipes, diapers, hygiene products, and more essentials for babies.

Funded by Gift Catalogue contributions from September 2018 to October 2019,
